

Mid-Atlantic Chapter Holds Annual Golf Outing Scholarship Fundraiser

The Mid-Atlantic Chapter held its Annual Golf Outing Scholarship Fundraiser and Reception at the Rocky Gap Casino and Golf Resort in Cumberland Maryland on September 10-11, 2017.

Scholarships were presented to two recipients. The Scholarship recipients are Penn State students Behnoud (Ben) Kermani and Masha Khosrojerdi. They attended the golf outing and had the opportunity to meet and mingle with chapter members.

The location was beautiful and the weather outstanding. The event

was well attended and everyone had a great time. We are now looking forward to next year's event.

West Coast Chapter Exhibits at Western Bridge Engineers' Seminar in Portland, Oregon

It is not often that I get to represent the West Coast Chapter in Portland so I was pleased to have our booth at the recent Western Bridge Engineers' Seminar. It was also great to see other WCC members exhibiting and as an added bonus, the attendees included some current and former board members. DBM Contractors, John Bickford (WCC Vice President); Dywidag Systems International, Lucian Bogdan; Con-Tech Systems, Jim Close (WCC Treasurer); and Hayward Baker, Rick Walsh (WCC Past President). ADSC members exhibiting at WBES – Case Foundation, Foundation Technologies, Inc., and Loadtest.

"The WBES focuses on the exchange of information between government agencies, consultants, contractors, educators, and suppliers on current subjects important to the design, construction, and maintenance of bridges." The three-day seminar was jam-packed with interesting education sessions which were well attended. I learned more about bridges than I ever probably wanted to know while making some potentially good contacts.

Special thanks to Joe Patterson, who thought he had retired, for helping me with the WCC booth.
