Re: **Northern California Operators Local 3 Training Class**
December 5-9, 2022, in Rancho Murieta, CA

We are thrilled to announce the return of our Drill Rig Operators Training Class with Local 3 in Northern California. This training class, now in its 10th edition, is developed in cooperation with the Northern California Operating Engineers Local 3 and the ADSC West Coast Chapter specifically for our industry. Professionals train attendees in classrooms and in the field; participants can also take written and practical exams for NCCCCO Drill Rig Operator Certification.

This year the class will be a **five-day** session designed to train drill rig operators and those wanting to become foreman/superintendents. (*Experience levels are from apprentice to seven years*). There are 20-25 spaces available to our members for NO cost to your company! Companies **MUST** be good-standing WCC members and signatory to Local 3 collective bargaining roster.

Lodging (optional) and food is furnished. Companies are required to submit a copy of their workmen's compensation insurance to ensure employees are covered.

If you have an interest in this class, please send a list of potential attendees along with their experience level and if lodging will be required. The class will fill-up quickly so act now to reserve your space!

Thanks for your cooperation,

Becky
